

## **Useful Resources**

The **Forestry Webinar Portal** is a service of the Southern Regional Extension Forestry Office, North Carolina State University's Extension Forest Resources, Texas AgriLife Extension Service, other participating land-grant universities and the USDA Natural Resources Conservation Service. This portal serves as a launching point for current and archived forestry, conservation, bioenergy and natural resource webinars. Many of the webinars featured on the site provide participants with continuing education credit, free of charge, from professional accrediting organizations such as SAF, ISA, CCA and others. They also host information on upcoming webinars and webinars from other organizations that are relevant and current for today's professionals, foresters and landowners. <http://forestrywebinar.net>.
